Importance: High

Hi Mike,

I'm supposed to move this forward this morning. Should I send to Bob and Anne without your review, or will you have a chance to take a quick look this morning?

Thanks!
Isabella

Thank you both for the comments. I tried to combine comments on the OPP Update into one version. For the internal Qs I just went ahead and accepted all of Eric's edits.

Mike, please take a look and let us know what you think.

Due COB today.

Thanks!
Isabella

Just a few quick thoughts on the OPP update. I think it'll be important to highlight that this product is species specific, i.e., does not affect all mosquitoes in the treatment area.

Good Afternoon Eric and Wiebke,

First thank you both so much for your continued help this morning as we work to prepare these comms for Alex. You both have been so fast and responsive. You guys are fantastic to work with on communications!

I have the first draft of the OPP Update (with quotes) and back pocket Qs and As. Please let me know what you think. After your review Mike will be next before Bob and Anne.

I'm hoping to get these to Alex by COB today in preparation for the Mon. FRN release.

Isabella
